A REVOLUTIONARY FLEX FABRIC

INTRODUCING CONTOURFLEX BY SKOPES –
A REVOLUTION IN WOMENS CORPORATE IMAGE CLOTHING.

Tailored from a contemporary knitted fabric, CONTOURFLEX weaves together supreme comfort, practicality and performance into stylish garments that are highly-flexible, designed to keep you at the top of your game.

Odegon STAY FRESH TECHNOLOGY is used in Jackets, Dresses and Waistcoats keeping garments fresh and wearers feeling confident.

Available in 9 designs and 4 colourways with sizes from 4 to 28, the CONTOURFLEX Collection will reshape your expectations of corporate image clothing.

A contemporary collection of mens mix & match suits is available to complement the womenswear.

CONTOURFLEX FABRIC

WE'VE INCLUDED A SWATCH OF OUR CONTOURFLEX FABRIC SO YOU CAN SEE & FEEL FIRST-HAND THE HIGH DEGREE OF STRETCH.

We call it 3D stretch as the fabric can stretch in any direction & enables us to produce garments that flatter & mould to the contours of the body much better.

In CONTOURFLEX garments these higher stretch properties are enhanced further with the addition of 6% elastane in the fabric & the use of stretch linings in Jackets, Dresses, Skirts and Waistcoats.

Using a knitted construction provides garments with a wonderful, feminine softness & a significantly higher degree of stretch than traditional, rigid woven fabrics, even those with elastane.

The net result is garments that offer superior comfort & movement with no sense of restraint.

TECHNICAL SPECIFICATION

- Fabric: 59% Polyester, 35% Viscose, 6% Elastane
- Construction: Knitted
- Weight: 275 gm
- Care: All garments are machine washable @ 40°C
- Fabric meets Oeko-Tex Standard 100
- Stay Fresh Technology: Jackets/Dresses/Waistcoats
- Stretch lining: Jackets/Dresses/Skirts/Waistcoats
- YKK branded zips used in Dresses, Skirts & Trousers

All our fabrics are independently tested in the UK by High Street Textile Testing Services a UKAS accredited organisation. CONTOURFLEX garments are suitable for all working environments & are easy care, machine washable or can be dry cleaned.

PERFORMANCE

- Pilling: Grade 4-5
- Abrasion: 100,000 + with no threads broken.
- Colour Fastness: Grade 4
- Crease recovery: 98% after 1 minute
- Snagging: Grade 4

STAY FRESH TECHNOLOGY

THE NEW CONTOURFLEX RANGE FROM SKOPES INCORPORATES REVOLUTIONARY, ODOUR ABSORBING FABRIC – ODEGON®

Odegon is not a finish but an innovative new fabric based on a special type of Nano-porous carbon based material that traps odour molecules using a completely inert, chemical free process.

Small fabric patches that are discreetly sewn under the armhole on Jackets, Dresses & Waistcoats that will absorb odour regardless of washing or dry cleaning. Odour molecules are captured in the fabric patches & retained leaving nothing but fresh smelling air as a result of the Van der Waals force. These odour molecules are then released & washed away by the action of heat during washing or dry cleaning.

Odegon STAY FRESH TECHNOLOGY is permanent & does not wash out. It is kind to the environment, unlike anti-microbial finishes.

Using Nano-technology, a single Odegon patch has the equivalent surface area of a tennis court and limitless active functionality. It will carry on absorbing odour & giving protection for the lifetime of the garment.

Odegon - keeping garments fresh & wearers confident.

BENEFITS OF ODEGON

Instant odour capture

Works for the lifetime of the garment

Safe for the environment & chemical free

Can be washed

FIT GUIDE

WHEN MEASURING, THE TAPE SHOULD BE SNUG BUT NOT TIGHT, WE HAVE ENSURED THAT THE STYLING AND FABRIC GIVE THE PERFECT FIT.

Dress, Skirt & Trouser lengths – Please refer to the individual garment descriptions.

Petite fittings – for ladies 5'3" (159.5cm) or under

Tall fittings - for ladies 5'7" (170.2cm) or taller

GARMENT ALLOCATION & CARE GUIDE

Contourflex garments are available from stock so you only ever need to buy to your exact requirements & new starters can be catered for quickly & easily.

With a range of styles to choose from in a huge array of sizes & fittings every wearer should be able to find the perfect garment for them.

All contourflex garments have been rigorously tested and are easy care, machine washable on a 40°C wool wash cycle (garments can also be dry cleaned).

Styles with odegon stay fresh technology should require less frequent washing.

Annual allocation

We recommend full time wearers should ideally receive as a minimum:

2 - jackets/dresses/waistcoats

3 - skirts/trousers

By following the washing & care instructions on the garment care label & ensuring that your clothing is rotated on consecutive days:

We recommend jackets, dresses & waistcoats can be washed a maximum of 20 washes.

Skirts & trousers can be washed a maximum of 30 washes

For best results, always follow the care instructions on the garment label.
